# 01 MORTAR ROUNDS

High-reliability mortar ammunition across NATO and Soviet-standard calibers.  
Precision-manufactured for consistent ballistic performance in field operations.

60MM

82MM

120MM NATO

120MM SOVIET

## 02 ARTILLERY SHELLS

Field artillery projectiles for standard towed and self-propelled gun systems. Available in multiple calibers with HE and extended-range configurations.

122MM

152MM

# 03 MK-19 & 40MM

Automatic grenade launcher systems and compatible 40mm ammunition. Tripod-mounted MK-19 with HE and HEDP round options for 40×46 and 40×53 calibers.

## MK-19 GRENADE LAUNCHER

40×46

40×53 HEDP

40×53 HE

# 04 FPV DRONES

Combat-proven first-person-view platforms in three frame sizes. Carbon-fiber construction with configurable payload capacity for tactical deployment.

| MODEL   | PAYLOAD | COMBAT SPEED | FLIGHT TIME (WITH PAYLOAD) | FLIGHT TIME (NO PAYLOAD) |
|---------|---------|--------------|----------------------------|--------------------------|
| 7-inch  | 1.5 kg  | 80 km/h      | 15 min                     | 30 min                   |
| 10-inch | 3 kg    | 80 km/h      | 15 min                     | 30 min                   |
| 15-inch | 4.5 kg  | 80 km/h      | 15 min                     | 30 min                   |

7 INCH

1.5 kg payload · 80 km/h combat speed

10 INCH

3 kg payload · 80 km/h combat speed

15 INCH

4.5 kg payload · 80 km/h combat speed

Fixed-wing unmanned aerial platforms for reconnaissance and surveillance missions. Long-endurance designs optimized for stable flight and payload integration.

## STICK M12

FIXED-WING RECONNAISSANCE UAV

## DANCER

TACTICAL SURVEILLANCE UAV

## 06 ROCKET LAUNCHERS

Vehicle-mounted multiple rocket launcher systems with integrated fire control. From heavy BM-21 platforms to mobile S8-KOM configurations.

### BM-21 & FIRE CONTROL SYSTEM

### S8-KOM

## 07 ARMORED VEHICLES

Main battle tanks and armored fighting vehicles. Battle-tested platforms available for procurement, refurbishment, and systems integration.
